All AADCAP members should contact Earl Magee, if: 1) they know someone who has recently become a division director; 2) they have heard about new child and adolescent psychiatry programs, or 3) they have changed programs (or retired). It is especially important to invite the directors of new programs into AADCAP, so they have an instant network of colleagues and access to all that the AADCAP has to offer. Please contact AADCAP if your membership status, address, or email address changes.
